A “cocurricular activity” means those portions of the school-sponsored and directed activities designed to provide opportunities for students to participate in such experiences on an individual basis or in groups, at school and at public events, for improvement of skills (i.e., interscholastic sports, band, etc.). Cocurricular activities have one or more of the following characteristics:

1. They are for credit or required for graduation;
2. They are conducted at regular and uniform times during school hours, or at times established by school authorities;
3. They are directed or supervised by instructional staff in a learning environment similar to that found in courses offered for credit; and
4. They are partially, primarily, or totally funded by public moneys for general instructional purposes under direction and control of the school board. Any deficits resulting from these activities are always subsidized by general school funds.

B. Curricular Activity

A “curricular activity” means those portions of the school program for which credit is granted, whether the activity is part of a required or an elective program.

C. Extracurricular (Noncurricular/Supplementary) Activity

An “extracurricular (noncurricular/supplementary) activity” means all direct and personal services for students for their enjoyment that are managed and operated under the guidance of an adult or staff member. These funds are normally accounted for in the student activity funds which are used to account for dollars raised *by* the students *for* the students. Extracurricular activities have *all* of the following characteristics:

1. They are not offered for school credit nor required for graduation;
2. They generally are conducted outside school hours or, if partly during school hours, at times agreed by the participants and approved by school authorities;
3. The content of the activities is determined primarily by the student participants under the guidance of a staff member or other adult;
4. With the possible exception of direct costs related to salaries and indirect costs of the use of school facilities, the activity is self-sustaining as all other expenses are met by dues, admission or fundraising events.

D. Public Purpose Expenditure

A “public purpose expenditure” is one which benefits the community as a whole, is directly related to the functions of the school district, and does not have as its primary objective the benefit of private interest.
